

Learn How We're Turning Pinchin Pit Into a Park

The Pits to Parks Restoration Project

Credit Valley Conservation (CVC) is planning to ecologically restore Pinchin Pit, a former aggregate site in Caledon. Our aim is to use clean excess soil to transform the site into an area suitable for tree planting, native grassland habitat and new wetlands.

Pinchin Pit will eventually be open to the public as a conservation area, featuring trails, wildlife habitat and nature-based recreation opportunities. We will be sharing draft conceptual plans for Pinchin Pit based on community feedback received to date.
